Training

Your IHS Customer Manager and Service Manager can provide you with training on IHS products. You can learn a variety of searching, printing and viewing functions that will help you locate information you need to be successful. Contact Anne Meininger at 301-975-2921 or at anne.meininger@nist.gov for information on scheduling IHS training sessions.

Accessing IHS Products

Please contact Anne Meininger for information on how to access IHS's Engineering Resource Center (ERC) products.

Copyright & Restrictions

NIST IHS Users must be aware of the copyright and use restrictions associated with the NIST IHS subscription. In addition, NIST IHS Users are expected to review the copyright restrictions and will be responsible for any violations of these terms and agreements.

TextAdvantage Plus

IHS
www.ihs.com

IHS products make it easier for you to reduce research time, streamline work flow, meet deadlines, avoid unnecessary costs and spend more time on primary job responsibilities. NIST subscribes to the following IHS products:

Specs & Standards

Use this Internet-based solution to simplify research tasks and specification development. This product provides access to over 350,000 standards from more than 450 organizations, in excess of 344,000 military documents and links to procurement information. You can search for documents by key word, title, document number, organization, FSC or document type. Specs & Standards also enables you to retrieve lists of all documents that reference a specific document, view document outlines and summaries, view listings of responsible activities and link to referenced documents. NIST has access to the following:

Commercial Industry Standards

AASHTO - American Association of State Highway and Transportation Officials
ACI - American Concrete Institute
A.G.A. - American Gas Association
AIA/NAS - Aerospace Industries Association of America, Inc.
ANS - American Nuclear Society
ANSI - American National Standards Institute
API - American Petroleum Institute
AREMA - American Railway Engineering and Maintenance-of-Way Association
ARI - Air-Conditioning and Refrigeration Institute
ASA - Acoustical Society of America
ASAE - American Society of Agricultural Engineers
ASCE - American Society of Civil Engineers
ASME - American Society of Mechanical Engineers
ASHRAE - American Society of Heating, Refrigerating and Air-Conditioning Engineers

AWS - American Welding Society, Inc.
AWWA - American Water Works Association
BSI - British Standards Institution
CECC - Electronic Components Committee
CSA - Canadian Standards Association
EIA/TIA - Electronic Industries Association
- CEA
- ECA
- EIA
- GEIA
- JEDEC
- TIA
EUROFILE - European Harmonized Standards Service
IEC - International Electrotechnical Commission
IESNA - Illuminating Engineering Society of North America
International/European Computer & Communications Document Service
IPC - Association Connecting Electronic Industries
ISA - The Instrumentation, Systems and Automation Society
ISO - International Organization for Standardization
NEMA - National Electrical Manufacturers Association
NFPA - National Fire Protection Association
NFP(A) - National Fluid Power Association
NSF - National Sanitation Foundation International
Pulp and Paper Industry Standards
SAE - International
UL - Underwriters Laboratories, Inc.
TAPPI - Technical Association of the Pulp & Paper Industry

MILSPECS/Standards/Government Documents

AND, ANA, & AN Drawings
Commercial Item Descriptions (CIDs)
Data Item Descriptions (DIDs)
DESC/SMD Drawings
Federal Information Processing Standards (FIPS)
Federal Specifications & Standards
Joint Army-Navy Specifications (JANS)
Military & Federal Qualified Products Lists (QPLs)
Military Bulletins
Military Detail Specifications
Military Handbooks
Military Performance Specifications
Military Specifications & Standards
MS Drawings
Qualified Manufacturers Lists (QMLs)
USAF & NAF Standards

TextAdvantage Plus

Compliance and productivity for the petrochemical industry in one easy-to-use solution. TextAdvantage Plus provides full-text searchable access to the most current editions of the ASME Boiler and Pressure Vessel Code, PetroChemical Standards Collection (more than 1,700 documents from API, ASME, ASTM, AWS, IEEE, NACE and more...) and API Select (280 of the most frequently referenced American Petroleum Institute documents). With TextAdvantage Plus you can:

- Search for keywords in the entire text, figures, tables, graphs and equations of a document
- Link to cross-referenced documents
- Copy and paste content from text and tables into your own document
- Download the entire document or choose to print select pages

ASME BPVC

Use this Internet-based solution to search the ASME Boiler and Pressure Vessel Code (BPVC) efficiently so you can find the information you need to ensure compliance of major systems, implement repair and maintenance quickly and design systems with precision. This product provides simple desktop searching of the ASME BPVC, including text, figures, equations, tables and related standards.

Information and Education Services

IHS is committed to supporting your success. Your individual Information and Education Service Plan outlines services you already receive from IHS as part of your subscription. In addition, the plan provides specific recommendations for additional customized services to help you better leverage your IHS solution. Select from education and training programs, knowledge management consulting, Web services and product support. Contact your IHS sales professional for more information.

Integrated Information Solutions

IHS can help you build links between your information resources to create an integrated chain of your technical information, accessible to your entire organization. Our wealth of documents and decades of indexing in our technical databases present a single source capable of handling all your information needs. Whether you need assistance with document management, data conversion, information portals, applications development, custom databases or Web hosting, IHS can deliver applications to fit your organization's needs.
